

PRODUCT AND SERVICE GROUPS

1. Partnership solutions, maintenance management and productivity

- Partnership and networking
- Maintenance consulting
- Economics and financing
- Globalization services
- Production management
- Risk management
- Accession systems and models
- Rental of human resource
- Service contracts
- Information management, maintenance and e-business
- Occupational safety
- Insuring
- Project tasks
- Contracting deals, for example ore extraction and transportation, tunnel excavation

2. Maintenance services

- Installation and contracting
- Rental of human resources
- Maintenance systems
- Maintenance contracts
- Modernizing, fundamental improvements
- Planning and consulting
- Inspection, testing and calibration services
- Production efficiency services
- Lubrication services

3. Monitoring and information systems

- Analysis and information systems
- Distance monitoring and diagnostics
- Measuring instruments
- Measurement and imaging
- Thermographic cameras
- Vibrational technology
- Softwares and software suppliers
- Wireless comprehensive solutions
- Data collection, management and transfer systems
- Data communication and network solutions
- Data security solutions
- Registers of infrastructures
- Product and data models of infrastructure

4. Maintenance tools

- Welding machines and instruments
- Tools
- Hoisting devices and equipment
- Machines and instruments
- Fixtures
- Light fittings
- Equipment rental
- Machine automation
- Levels, scaffolding, ladders
- Work clothing and protective equipment

5. Equipment, spare parts and accessories

- Bearings
- Plates, nets, bars
- HVAC devices and equipment
- Hydraulics devices and equipment
- Pneumatics devices and equipment
- Pumps
- Fans
- Pipelines, pipes and equipment
- Filters
- Containers, tanks, silos
- Technical brushes
- Seals
- Valves
- Transmission
- Lubrication equipment and systems
- Mining machines: drilling-, charging-, scaling-, supporting-, loading- and transportation equipment/machines, crushing plants, crushers, conveyors, drawing engines, vehicles, sieves, grinder mills, floating equipment, filtering-, thickening- and desiccation equipment

6. Maintenance logistics

- Transportation services
- Spare parts and accessories
- Shelving and conveyors
- Storage services
- Developing logistics chain

7. Surface treatment and corrosion prevention

- Techniques and procedures
- Equipment and materials
- Surface treatment materials and coatings
- Corrosion prevention and corrosion protection
- Research and consulting

8. Industrial buildings

- Property management, information systems
- Machines, supplies
- Maintenance
- Building automation
- Building
- Planning
- Building engineering solutions + Heating, plumbing, ventilation and electrical installation
- The safety of industrial buildings

9. Water supply

- Analyzing
- Chemicals and chemical processing
- Cleaning technique and filters
- Measuring devices
- Pumps and pump stations
- Barrels, pipeworks and networks
- Controlling systems
- Water handling devices, valves

10. Plant area and environmental technology

- Area lightning
- Energy maintenance
- Air protection
- Garbage disposal
- Wastewater treatment
- Machines, equipment and methods
- Quality and environmental systems
- Sorting and recycling
- Logistics in maintenance
- Permits and inspection (mining law and other laws)
- Landmass exchange
- Ground and groundwater protection
- Landscaping
- Noise and shaking prevention
- Measuring and adjustment techniques, environmental analytics, automatic measuring solutions
- Problem-waste service
- Courtyard and traffic area maintenance
- Barrels, pipe work and networks
- Cleaning
- Radiation protection
- Water protection
- Environmental management
- Oil control
- Monitoring and security solutions

11. Infrastructure and maintenance of traffic routes

- Traffic and channel techniques
- Harbor structures, dock yards
- Bridges, supporting walls
- Land and water building
- Urban planning
- Machines, devices and equipment
- Maintenance
- Ground, base and rock structures
- Superstructures and surface structures
- Structural engineering
- Risk reduction in internal traffic and community development

12. Energy

- Production and purchase
- Circulation and distribution
- Use and monitoring of use
- Energy conservation
- Maintenance for power plants

13. Safety

- Occupational safety
- Security systems, standards
- Materials and equipment
- Occupational safety services
- Guarding
- Fire and rescue work
- Permits and inspection
- Explosion safety
- Information security
- Coping on-the-job

14. Cleaning and sanitation

- Waste management
- Cleaning systems, equipments and machines
- Detergements and equipment
- Washing machines and equipment
- Services

15. Research & development & innovations, organizations, education and media

- Innovations
- Research and product development
- Patenting
- Certification
- Development projects
- Organizations
- Education
- Publications
